

Modules

Additional modules can be fitted as stand-alone (AM1046) or added to the main systems to bring more security and comfort.

AM1046

Keyless Entry

- Allows existing central door locking systems to be activated from a remote control
- Commands comfort window closure and blinker indicators

Nominal voltage: 12 VDC
Operating voltage range: 9 - 16 VDC
Working temperature:
-40 °C - + 85°C
Dimensions: 64 x 67 x 35 mm
Consumption: < 6 mA

AM2980

Universal window closure module for two electric windows

Nominal voltage: 12 VDC
Operating voltage range: 9 - 16 VDC
Working temperature:
-40 °C - + 85°C
Dimensions: 66 x 68 x 35 mm
Consumption: < 0,5 mA

AM8509

Double engine immobiliser for Bridge 4100

Nominal voltage: 12 VDC
Operating voltage range: 9 - 16 VDC
Working temperature:
-40 °C - + 85°C
Dimensions: 52 x 50 x 28 mm
Consumption: < 2 mA
